

***Your history is priceless;  
preserving it shouldn't be a mystery.***

At Vintage Solutions, we believe that every photograph, every home movie, and every dusty reel holds priceless, irreplaceable memories that deserve to be preserved for future generations. We deeply understand that while the emotional value of your family history is immeasurable, the financial cost of digitization can sometimes feel like a barrier.

The last thing we want is for precious family history—your legacy—to remain hidden away in a closet or attic simply due to uncertainty about the investment required.

To address this common concern and make the process as transparent and stress-free as possible, we have created a **simple, printable, and easy-to-use worksheet**. This tool is specifically designed to help you take the crucial first step toward preservation by allowing you to take an inventory of your media and get a clear, preliminary estimate of the costs involved.

This worksheet is your personal guide to organization and estimation, providing a solid foundation for your digitization project. It empowers you to clearly define the scope of your collection and understand the investment required to secure your family's treasured memories.

## **Getting Started in 3 Easy Steps**

1. **Gather:** Collect your old media (VHS, 8mm film, slides, etc.) from storage.
2. **Tally:** Use the following pages to check off your items and calculate your total.
3. **Drop-off:** Bring your media to **Vintage Solutions** for expert care.

**Turn the page to begin counting your memories!**
